PROFESSIONAL SUMMARY

B.Tech Computer Science graduate with strong expertise in Core Java, Python, Data Structures & Algorithms, and Object-Oriented Programming. Winner of the Internal Smart India Hackathon (SIH) with proven ability to deliver scalable solutions under tight deadlines. Actively practicing problem-solving on LeetCode with consistent hands-on coding experience. Seeking an entry-level Software Developer role.

KEY ACHIEVEMENTS

- Winner – Internal Smart India Hackathon (SIH) for innovative and scalable solution delivery
- Top 9 Finalist – NavKalpana National Hackathon (selected from 93 teams)
- Completed 50 days of continuous problem-solving on LeetCode, strengthening DSA and algorithmic thinking
- Recipient of Academic Excellence Awards and Technical Certifications
- Maintained a 150+ day GitHub contribution streak, recording 600+ contributions across coding practice, projects, and version control activities.

TECHNICAL SKILLS

Programming Languages: Java, SQL, Python, C, C++ (Basic)

Frontend Technologies: HTML5, CSS3, JavaScript

Frameworks & Libraries: Bootstrap, Tailwind CSS, Next.js

MERN Stack: MongoDB, Express.js, React.js, Node.js

Tools & Platforms: Git, GitHub, Eclipse IDE, VS Code, LeetCode

Core Computer Science Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Problem Solving

PROFESSIONAL EXPERIENCE

Software Developer | Raj Digital Pvt. Ltd. | Aug 2026 – Present

- Working on software development tasks and contributing to real-world web application development.

MERN Stack Content Developer | RICR Institute, Bhopal | 4 Months

- Created and structured MERN Stack learning content covering MongoDB, Express.js, React.js, and Node.js.
- Prepared technical documentation, study materials, and practical coding examples for full-stack development concepts.
- Developed topic-wise question sets with detailed solutions to improve learners' understanding and problem-solving skills.
- Designed beginner-to-advanced modules covering frontend, backend, REST APIs, authentication, JWT, and project-based learning.

PROJECTS

AI Career Intelligence Engine (ACIE)

- Developed an AI-powered career preparation platform that analyzes resumes, extracts skills, and detects skill gaps.
- Built a job-role database containing role requirements, skill sets, and interview question banks.
- Implemented adaptive quizzes and assignment generators based on identified skill gaps.
- Designed an AI mock interview engine supporting technical, HR, and behavioral interview simulations.
- Generated automated feedback reports highlighting strengths, weaknesses, and improvement strategies.
- Integrated a feedback loop system to track user progress and performance.

Cravings – Smart Food Delivery Platform (MERN Stack)

- Developed a full-stack food delivery platform with secure JWT authentication, role-based access control, and responsive Admin, Customer, and Rider dashboards.
- Implemented Neighborhood Pooling (Group Drops), Macros & Fitness Integration, and a Travelability Score for delivery optimization.
- Integrated RESTful APIs, MongoDB, Cloudinary, and OTP-based email verification to deliver a scalable and user-friendly application.

RWave – Real-Time Chat Application (MERN Stack)

- Developed a real-time chat application using MongoDB, Express.js, React.js, Node.js, and Socket.IO.
- Implemented secure JWT authentication, one-to-one messaging, group chats, real-time typing indicators, online/offline status, file sharing, and responsive user interfaces.

AI Voice Assistant & Obstacle-Avoidance Robot

- Implemented voice command execution and object detection logic using Python.

EDUCATION

B.Tech in Computer Science Engineering – RGPV, Bhopal | CGPA: 7.86

CERTIFICATIONS & ACTIVITIES

Java Programming | Project Competition Participant (2024–25) | Hackathon (NavKalpana) 2026 | MS Word & Excel (ISO Certified) | Volleyball – Best Performer
